

3. Confirmation of funds (CoF)

3. Confirmation of funds (CoF)

Confirmation of funds is a service which validate available funds on customer account against instructed amount from TPP, and provide Boolean result, whether amount could be withdrawn or not. Available funds are not exactly balance on the account, but the amount which customer will be able to utilize through payment order or card transaction.

COF Methods

Name	Endpoint
3.1.Funds confirmation	GET /api/v1/funds-confirmation
